

Greetings and Hello to All,

I will from time to time post hopefully short messages to try and keep you informed as possible. I have however found that with all that's going on these can get quite long and we all know what happens with long messages, they simple do not get read. Please keep reading the website as we will post everything we have going on up there.

I am very excited about the turn the PLA has been making toward meeting the promises I made to all of you. You and I are blessed to have a great staff of people behind me to make things happen. The first annual car show, the fireworks show, the 4th of July weekend events, the up-coming Pig Roast for our volunteer fire fighters are just a few. You will be seeing many more positive changes/events in the coming year.

The next meeting is scheduled for August 19th 2010 to be held at the Prairieville Township Hall in Prairieville at 7 PM. Please make time to be there to hear what's going on and to put in your 2 cents worth. We are planning on posting a solid agenda for this and all future meetings so you know what's going on.

All the best laid plans and ideas hold little value without you and I mean that. If I were to tell you I know where you could invest 25 dollars and get a many fold return most of you would be all over it. I have such a tip and that's the PLA an investment in your community and the dividends are certainly there. It's not all about money it's about quality of life and you can be part of building that. Many hands make light work and frankly we are very short on the hands. Please join the PLA. Please find the time to give of yourself with a very few hours a year, I promise you will see the results. Have you been waiting for someone to ask? I am asking! Email me or call me I will be happy to make a personal visit. For many of the needs we have would be less time that the time you stare at the coffee pot thinking about filling up your cup each year, so still think you can't find a little time?

Remember I made all of you promises and I have no intention of backing down on them and if for any reason you think I am call me to the mat!! I am not a politician who tells you what you may want to hear and never follows through. Not everything the PLA may be trying to do will interest everyone and that is OK, but please supports the efforts as they mean something to those that do. We are a small community and don't have to let the outside world negatively effect what we have going on here

Scott Cook
PLA President
