

My Neighbors,

You have not lived until you knock on every door on Pine Lake! I am nearing the end of my promise to knock on each and every door to meet all of you. I have only one regret and that is all of you were not home when I came knocking, oh and that 90 degree weekend was tough also. Thank you for your time

Request:

I am asking for your vote and support. If you have been looking for someone to stand up and care, well here I am. If you're looking for someone to listen, I have and will be.

You will be voting for some of the most dedicated caring people on the lake on June 19th and all any are asking is for your support. It may sound like a cliché but the PLA is nothing without you. If you knew of an investment or stock that was guaranteed to make you many times over what you put in you'd be there is a heart beat, and the PLA is just such an investment. I realize trust in the 21st century is harder to come by but we will earn your trust and we are only asking you give us yours as we prove it. Please make sure you find a way to be at the June 19th Annual meeting, meet, greet, join, volunteer, and vote, you'll be glad you did. My goal is 80% lake membership over the next year and 50% being at the annual meeting. Lofty? Yes! Doable? You bet it is!

Credit:

To be very clear there is probably not one idea that you have heard from me that has not been thought of by someone else already. A great idea is a great idea no matter who is championing it; the key is getting a great idea into reality. In the latest news letter there was a 2012 section. This is my personal view of the lake that's possible in 2012 and only probable with your support. The word impossible does not exist; it's never a matter of if but rather of when. I am not looking for any credit, only results. Any credit or victory if yours!!!

You the people:

During my walk I have met hundreds of you my neighbors. I would like to say I was surprised by the positive response but you're as great as I expected you to be. I met your family, and your dogs/cats. I heard your concerns and hopes. I listened to your message and took them to heart. I sat by the fire, was invited into your home, offered to join your meal, and simply put you my neighbors are everything I expected and a little more. I had only one stop where it didn't go well, but I will be going back to that home and trying again.

Friendship and neighbors are a precious natural resource that is limitless if you cultivate it. We have a golden opportunity in our little corner of the world to make a huge difference let's not let it slip through our grasp!

In Closing:

The only reason the PLA is even here is because there were caring people who got together for the benefit of all. Credit must be given to those with the foresight to see a need and a place for the PLA and to start the ball rolling. In the years since many great people have held positions and volunteered to continue the PLA legacy. Many still live at the lake and continue to be part of our community. Please remember to thank them next time you see them, past or present. They have and are serving a purpose we all need.

See all of you June 19th 9:30 AM at MCTI for the annual meeting!!!

Great things are on the Horizon!!!!

Sincerely

Scott Cook
